## **Engineering Drawing CD User Guide**

Thank you for purchasing our book of Engineering Drawing.

### **Installation Instructions**

\*\*\*\*\*

Please note that CD will auto-run. If you are unable to play contents properly, then read following two points.

If AutoRun Facility is “ON” in your computer

(\*) Your Computer must have

1. Adobe Shockwave Player 11 (1.0.0.0) or higher version
2. Adobe Flash Player 9.0.124.0 or higher version

Once installed, then you will be able to run and play all the content.

(\*) If you do not have above mentioned files then

1. Engineering Drawing CD has built in AutoRun file so when you put the CD in CD drive it will run automatically
2. AutoRun will install the required files on your machine to run the CD

Once installed, then you will be able to run and play all the content.

(\*) If AutoRun Facility is “OFF” in your computer then perform following steps **manually**

1. Explore the contents of the CD from windows Explorer
2. Run the setup.exe which will install the required files on your machine to run the CD
3. At last run Launch-Engineering-Drawing-CD.exe

Once installed, then you will be able to run and play all the content.

Please note that you can download the Adobe Players from [www.adobe.com](http://www.adobe.com) and you can also find them on this CD.

1. install\_flashplayer11x32\_chrd\_aih.exe
2. Shockwave\_Installer\_Slim.exe

Please ensure to have them installed in case you face any issues while running the CD.

**Wish you All the Best!**
